MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Natural Areas, Clearing and Grubbing,
Headquarters Compound

REFERENCES : (a) Memo dtd 18 Oct 67 to DD/S fr D/ ,
same subject
(b) Memo dtd 14 Jul 67 to GSA fr C/RECE/O ,
same subject

1. This memorandum contains a recommendation for your approval; such recommendation is contained in paragraph 5.
2. We have just been advised by the General Services Administration (GSA) that their Regional Office is currently in a position to undertake the grubbing and clearing of the underbrush within the Headquarters compound which we discussed in reference (a). The General Services Administration can do this work for us on a reimbursable basis for approximately \$7,000. They propose to utilize their own personnel to do this work. These are the same persons who normally work in our compound during the summer months.
3. The General Services Administration further advises that we have approximately \$6,000 remaining of the original \$20,000 we turned over to them this past summer in reference (b) and that this money can be used for the purposes described. We can make the difference between the \$7,000 estimate and the \$6,000 remainder available from Logistics Services Division (LSD) funds. You will recall reference (b) pertained to the clearing of the areas immediately outside of the main fence encircling the grounds.
4. We have discussed this latest GSA proposal with the Office of Security and they concur in our recommendations to proceed as outlined.
5. It is recommended, therefore, that you approve the expenditure of \$7,000 for the purpose of clearing the underbrush within the Headquarters compound; such funds to be made available from the \$6,000 remaining from the \$20,000 initially turned over to GSA and the remaining \$1,000 from the funds of LSD.

MEMORANDUM FOR: Deputy Director for Support

SUBJECT: Natural Areas, Clearing and Grubbing,
Headquarters Compound

1. This memorandum contains a recommendation for your approval; such recommendation is contained in paragraph 2.

2. The Office of Security, DD/S, has requested that the underbrush on the Agency Headquarters compound, both inside and outside the security fence, be removed. During the summer this year, the Youth Opportunity Campaign cleared a strip on the outside of the fence at a cost of approximately \$20,000. Five wooded areas remain inside the security fence, totaling approximately 8½ acres.

3. The cost of the proposed work, based on a bid given by an outside contractor and the experience acquired from the area cleared this summer, has been estimated at \$15,000.

4. The Office of Logistics has not earmarked any funds in Fiscal Year 1968 for this purpose. If money is to be made available, it will have to come from other sources.

5. We recommend, therefore, that for reasons contained in paragraph 2 above:

a. Funds in the amount of \$15,000 be made available to the Office of Logistics for the purpose noted above and

b. Logistics be authorized to proceed with the work as outlined.

15/

George E. Haleon
Director of Logistics

Mr. W. H. Eastman
Regional Director
Public Buildings Service, Region 3
General Services Administration
Washington, D. C. 20407

Dear Mr. Eastman:

As you know, our Headquarters site at Langley, Virginia, contains some 175 acres. Approximately 50 percent of this total is outside our security fence and is marked only by a property line fence. This area was generally left in its natural state to serve as a buffer zone even though a portion is lightly wooded. However, the dead and down timber, together with the scrub growth which presently exists, presents a most unsightly and unfavorable appearance. We wish, therefore, to have the necessary clearing and grubbing accomplished in the area outside our security fence.

Since this Agency considers the Youth Opportunity Campaign (YOC) to be a most worthwhile program and one in which we desire to participate, it is requested that the Public Buildings Service (PBS) arrange for the YOC labor and furnish the equipment, supervision, direction and other logistics as required for the clearing and grubbing of the property outside our security fence. It is understood that it would require about two weeks to recruit YOC personnel (approximately 35) and arrange for the assignment of five PBS supervisors. The work could then be started by approximately 1 August and completed in early September.

Assuming that you will approve the accomplishment of the work in the manner described above, we are enclosing a Job Order, PBS Form No. 1354, in the amount of \$20,000.

Your cooperation is most appreciated.

Sincerely,

[Redacted Signature]

Chief

Real Estate and Construction Division
